> • android.permission.READ_EXTERNAL_STORAGE
> • android.permission.WRITE_EXTERNAL_STORAGE

Events

Got Screenshot

Event to detect that a screenshot was made by the user. Returns the image path to the taken screenshot.

Params	
image	Text

Methods

Take Screenshot

Take a screenshot of the current visible screen.

Properties

Allow Screenshots

`Boolean` `Default: True` — `Write` - `Designer` `Blocks`

This feature allows users of your app to make or ban screenshots of their app. If disabled and a person tries to make a screenshot, they will receive then a default system message that this is not possible.

Are Permissions Granted

`Boolean` — `Read` - `Blocks`

Returns true if the write and read permission is granted, else false.

Dim Amount

`Number` `Default: 0.5` — `Read` `Write` - `Designer` `Blocks`

Set the amount of dim behind the preview window if ShowPreview(...) is enabled. Use '0.0' for no dim and '1.0' for full dim.

File Name

`Text` `Default: Screenshot.png` — `Read` `Write` - `Designer` `Blocks`

This will be the name for the taken screenshot image file.

is Read Permission Granted

`Boolean` — `Read` - `Blocks`

Returns true if the read permission is granted, else false.

is Write Permission Granted

`Boolean` — `Read` - `Blocks`

Returns true if the write permission is granted, else false.

Notification Share Title

`Text` `Default: Share` — `Read` `Write` - `Designer` `Blocks`

This will set the notification share button text if the option "Show Notification" is enabled.

Notification Title

`Text` `Default: Screenshot..` — `Read` `Write` - `Designer` `Blocks`

This will set the notification title if the option "Show Notification" is enabled.

Show Notification

`Boolean` `Default: False` — `Read` `Write` - `Designer` `Blocks`

If enabled you will see a notification in the statusbar after the screenshot is taken.

Show Notification Share Button

`Boolean` `Default: True` — `Read` `Write` - `Designer` `Blocks`

If enabled you will see a notification with a share button after the screenshot is taken.

Show Preview

`Boolean` `Default: True` — `Read` `Write` - `Designer` `Blocks`

If enabled you will see a short preview animation after the screenshot is taken.

Use Large Notification

`Boolean` `Default: False` — `Read` `Write` - `Designer` `Blocks`

This will display the notification in a big style.
