Params	
in	Text

Has Super User Apk Installed

Returns: *Boolean*

Returns TRUE if one of 6 known root packages or varients is installed. The name of the package is not returned, so the user does not know which package name to change. Developed by Cian.

Is Rooted

Returns: *Boolean*

Returns true if Phone is Rooted

Is System User

Returns: *Boolean*

This returns TRUE if the system user is running the application, and could be a sign of a rooted device. Developed by Cian.
